OMNILIFE UNIVERSAL LIFE + CRITICAL ILLNESS LIVING BENEFIT RIDER

Form POL-UL-CI-2025 | Accelerated Living Benefit Endorsement

SECTION 2.1 -- QUALIFYING CRITICAL ILLNESS (CI) SEVERITY THRESHOLDS

The Critical Illness Living Benefit Rider pays a lump-sum accelerated benefit upon definitive diagnosis of Invasive Malignant Pulmonary Neoplasm, defined strictly as a primary lung tumor measuring >= 2.0 cm on thoracic radiograph/CT accompanied by histopathological biopsy confirmation (ICD-10 C34.x) after the 90-day waiting period.

SECTION 5.3 -- BIOMETRIC & DIAGNOSTIC IMAGE ANTI-FRAUD CLAUSE

All diagnostic radiographs submitted for Living Benefit claims are indexed via multimodal vector search against OmniLife's historical claims atlas. Submission of a duplicate, recycled, or digitally altered radiograph previously submitted under another policy or claimant constitutes Syndicated Insurance Fraud, requiring immediate SIU_FRAUD_RING_REJECT ($0 payout) and referral to the National Insurance Crime Bureau (NICB).
